Hi.
I get this message:
ARI Docs Viewer: 'http://lykaines.lykoi.org/documents/lykaines.doc' file doesn't exist. Check that the correct path to the file is specified. The path is a case sensitive.

However, if I copy-paste http://lykaines.lykoi.org/documents/lykaines.doc in browser address the file is properly found !

Can u tell me if I'm doing something wrong ?

I use this in Joomla article editor mode:
{aridoc engine="google" width="550" height="450"}documents/lykaines.doc{/aridoc}

Thank u !

Hello,

Could you provide a link to a page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft
