
Smartbook and AriSexylightbox

Posted by Marsm - 2014/06/17 12:03

Hi,
how can I integrate Smartbook in Sexylightbox?
I want a link in an article wich opens the smartbook. Like on your demo site.
Thanks.

Hello,

Yes, it is possible.

Regards,
ARI Soft

Hi,
yes, I know it is possible. My question is, how do I do it?
Which code do I need in an article?
Thanks.

"ARI Smart Book" can create links for the lightbox automatically if "ARI Smart Book -> Category" menu item is used.

If you want to add a link to an article for example for book with ID = 15, use the following code for "System - ARI Sexy Lightbox Anywhere" plugin:

```
{arisexylightbox activeType="rcontent" width="900" height="800"
url="index.php?option=com_arismartbook&view=book&bookId=15&tmpl=component"}Open book{/arisexylightbox}
```

Regards,
ARI Soft
