Image colours displaying incorrectly Posted by elombard - 2014/11/03 10:33
Hi,
When I load the images into the folder for the book display the colours change. This only happens when I link the image folder to Ari-Smart. If I upload the file to any other Joomla file the colour displays correctly.
Is there a setting that may cause this?
Please see the image attached as well as the link to the page where it is doing this. http://r2z.co.za/sisterlilian/ebaby?view=book&bookId=1
Thank you in advance
Regards http://www.ari-soft.com/images/fbfiles/images/ebaby_sept_oct_2014_page_a.jpg

Hello,
Could you send PDF file which you use to create the book by email?
Regards, ARI Soft
