
Display Order of books

Posted by stevelanz - 2015/01/03 19:21

I'm using the smartbook for a monthly newsletter, I need the display on the website to display the list in newest first order. I have been unable to find out how to do that, could you point me in the right direction.

Thanks in advance for you help

Hello,

It is possible to sort books by created date. For this open "Options" tab for "ARI Smart Book -> Category" menu item type and set "Sort by" parameter to "Created date" and set "Sort direction" to "Descending" value.

Regards,

Thanks so much, that fixed it. Great support, I didn't expect a response till monday. By the way, great product very easy to use and much simpler than your competitors. Will give you a good review.

You are welcome. Feel free to contact us with any questions about the extension.

PS: We would be very grateful for a review.

Regards,
