
modify Title

Posted by Brienois - 2015/02/09 08:00

Hello !

This extension is really great

I aiemrais can change:

1) The location of the title to the left so that it is centered home

2) The bold cacatÃ"re instead of normal

What file do I make changes?

Many thanks

Hello,

1. See \libraries\arismartbook\tmpl\arismartbook.php template file.

2. Could you explain what do you want to change?

Regards,

ARI Soft

Excuse me, I have let some of the text in French:

I just wish that the title is written in bold cacatere instead of normal

Many thanks

Add the following CSS rule to a site template CSS file or to template which is used for book(s):

```
h2.smartbook-title {font-weight:bold;}
```
