
How to disable \"Save image as\" from right-click

Posted by oleganywhere - 2015/07/20 12:21

I would like to prevent users from being able to save the book page-by-page. Is there any possibility to disable the "Save Image as..." menu option from right-click menu? I know this is possible in html by entering some header lines in html document. For example:

Or by applying to the image directly:

Anyone could advise how to do this for Smart Book?

Hello,

We have added "Disable right click" parameter to template settings. Upgrade the extension to v. 1.8.8, open "ARI Smart Book -> Templates" page, open template settings and set "Book settings -> Disable right click" parameter to "Yes".

Regards,
ARI Soft

Hello Admin

Upgraded to v 1.8.8. It works as you said. Many thanks!
