
Navigation in the book

Posted by Brienois - 2015/09/17 13:56

I tried unsuccessfully to operate the links between multiple pages, without success.
I activated hashlinks and indicated the prefix cave but the links do not work
I do not understand
probably a code error ...
Many thanks

Hello,

Where we can see the problem?

Regards,
ARI Soft

Hello !
Many thanks for your prompt answer
Here is the link

<http://soulie.rhonealpesmultimedia.com/index.php/le-restaurant/la-cave#cavepage/2>

This link opens the second page (based on #cavepage/2 hash tag). If use the following link:

<http://soulie.rhonealpesmultimedia.com/index.php/le-restaurant/la-cave#cavepage/5>

Page #5 will be opened. Could you explain what's wrong?

Regards,
ARI Soft

It is not moving browser's scrollbar to the book, but it opens the page which is indicated hash.

We checked it on your site in FireFox, Google Chrome and Safari browsers. What browser do you use?

Regards,
ARI Soft

I do not understand what is happening.
I tried on two computers with GoogleChrome, Firefox and IE11
The links are always inactive http://www.ari-soft.com/images/fbfiles/images/links_inactive.jpg

Upgrade the extension to the latest version and try again. If it doesn't help, let us know and we will investigate the problem.

Regards,
ARI Soft

Hi !
Thank you for all your answers.
I just made up a component of the day
The links still do not work
Many thanks
Brienois

Super ..
It works !
I forgot to empty the browser cache after loading the new version!
Many Thanks !!!!
Brienois
