
Some changes in color and size

Posted by cjirik - 2018/12/23 17:55

How can I change to following requests? Please see <http://prntscr.com/lyop8m>

Best regards,

Christian

Hello,

Add the following CSS rules to a site template CSS file to hide book title, navigation scrollbar and change color of the buttons:

```
/* title */
.ari-smartbook-container .smartbook-title {display: none}

/* nav scrollbar */
.ari-smartbook-container .smartbook-sliderbar {display: none}

/* buttons */
.smartbook-toolbar-buttons LI I::before {color: red}
```

About missing icons, it seems this is a problem with site template / 3rd plugin styles. Could you provide a link to a page where the problem occurs so we can investigate it?

It is not possible to change size of content, because it is an image.

Regards,
ARI Soft

1. I can give you the link to my page, but cannot give you the login data in this public Forum:

<http://biz251.inmotionhosting.com/~praxis28/index.php/pages/einladung#page/1>

For the login please send me an email to cjirik@gmx.net. Thank you in advance.

2. Why can I not zoom into the document without seeing the full document like in the Fullscreen mode?

3. Can I also change the colors of the scrollbar if I do not want to remove it complete?

1. Send credentials by email.

2. It is possible to use zoom in/out buttons in toolbar to zoom document.

3. Use the following CSS rules:

```
.smartbook-sliderbar .ui-slider-horizontal .ui-slider-handle {  
    background-color: green;  
}
```

```
body .smartbook-sliderbar {  
    background-color: yellow;  
}
```
