
Ari smartbook

Posted by henschel - 2019/06/25 21:31

Hello,

I'm using Ari smartbook and made two books in a new category.
First it worked, but now it says: The selected category doesn't contain books.

Please help me.

Thank you,
Hans

Hello,

Could you provide a link to a page where the problem occurs and a temporary access to your J! backend by email to have ability investigate the problem?

Regards,
ARI Soft
