Only First Page Loads

Posted by markfain@comcast.net - 2020/03/04 05:42

_____

Ari Smart has worked for several years but a new issue just occurred not related to the jQuery as my previous discussion. The book loaded all pages even with the previous jQuery issue. Everything sets up nicely as it always has and the first page loads but the remaining 7 pages do not. Those page are there but blank. Here is a direct link to the issue. I had previously given an admin sign in. I can resend that if needed. Thanks, Mark

_____

Hello,

Try to disable images lazy loading. For this open "ARI Smart Book -> Templates" page, select the template which is used by the book, open "Book settings" tab and disable "Images lazy load -> Enable" option.

Regards,
ARI Soft
