Hello,

I am interested in the pro version of ari cloud carousel, but I would like to know before buying the difference with ari cloud carousel.

It adapts well to mobile devices and is compatible with J3.2 and have some kind of support to compare it?

Thank you

Regards

Laura

Hello,

"ARI Cloud Carousel Pro" is a responsive and mobile friendly (supports swype navigation). We also provide a premium support for it. The extension is compatible with Joomla! 1.5 - 3.x (including 3.2.x).

Regards,

ARI Soft
