Hello,

This problem with site template styles. Add the following CSS rule to "CSS Styles" parameter in module settings or to a site template CSS file:

```
.ari-cloud-carousel .modal {  
  position: relative;  
  left: auto;  
  top: auto;  
  margin: 0;  
  width: auto;  
  border-style: none;  
}
```

Regards,
ARI Soft
