
aricloudcarousel.ini does not work

Posted by iddesign - 2016/10/05 16:55

Hello,

I just edit the file "aricloudcarousel.ini "
with the following code :

Le-BRUT-ROSE.png="Coffee"

bread.jpg="This is a bread"

Le-BRUT-ROSE.png="A cup of coffee"

Le-BRUT-ROSE.png="http://www.google.com"

Thank you

Hello,

INI file should be located in folder with images. In your case it is /images/ari-bouteilles folder.

Regards,
ARI Soft

Thank you I did not understand.

I want to insert code on each photo.

Pop up with text and picture or use Widgetkit but how to add code to the .ini file
thank you in advance

It is possible to add titles, descriptions and links (a link will be opened when a user clicks by an image). It doesn't provide ability to place a code (HTML, PHP, javascript or other) into INI file. If want to open an image (or link) into a popup, the extension supports integration with lightbox extension (see "Lightbox integration" parameter in module settings).

Regards,
ARI Soft
