
ari cloud carousel pro version 1.1.6

Posted by pixelschupser - 2019/09/14 04:32

good day support

is there a newer version as ari cloud caousel as version 1.1.6

I have deleted my cache on the browser and the ari cloud carousel did not function anymore.

can you please help me

the side is "www.b-em.de"

kind regard

Hello,

What browser do you use? We checked it in Google Chrome and the carousel works fine.

Regards,

ARI Soft

Sorry support

I have only tested with Firefox and there it has no function.

I have tested it now with Safari and it functions also.

So I must look what to do in Firefox.

Thanks for your help

kind regards
