
ARI ORG CHART

Posted by JEREMIE HAVEL - 2015/09/22 08:27

Hello

Is it possible to insert pictures in the ARI ORG CHART ?

I purchased the product but failed to do it, please help if possible

here's what I did:

```
{source}
{orggchart}
{node title="aaa" tooltip="bbb"} prÃ©sident
{node} TrÃ©soriÃ¨re {/node}
{node} TrÃ©soriÃ¨re adjointe {/node}
{node} Conseil d'administration
{node} Sergeant 1 {/node}
{node} Sergeant 1 {/node}
{node} Sergeant 1 {/node}
{node} Sergeant 1 {/node}
{node} Sergeant 1 {/node}
{/node} {/node} {/orggchart}
{/source} http://www.ari-soft.com/images/fbfiles/images/2015\_09\_22\_10\_27\_48.png
```

Hello,

It is possible to use any HTML code in {node} tag (including tag). If it doesn't work, it can be a problem if an incorrect path to image is used or if you use a WYSIWYG editor to enter plugin code, the editor can break HTML code. Could you provide a link to a page where org chart is used so we can investigate the problem in more details?

Regards,
ARI Soft

No I can't provide a link at the moment I'm using a LOCAL server unfortunately

Could you show me an example on where to place it please. I'm not sure whether it goes inside or outside the {node}

Thanks in advance !

BTW the file path is good.

If I place it outside the chart code, it's working fine

Also, is there a documentation somewhere except from this page ? <http://www.demo2.ari-soft.com/joomla-organizational-chart.html>

Your code looks normal, but if you use a WYSIWYG editor, switch it to plain text mode and check plugin code. WYSIWYG editors can modify code in design mode.

If it doesn't help, could you send HTML source of the page (select "Show page source" menu item into a browser and save it) where the problem occurs by email?

Regards,
ARI Soft
