
Problem showing instagram user timeline

Posted by itnoroeste - 2015/10/27 18:30

Hello,

i can show an instagram search, but no an instagram user timeline.

I try with:

- Username
- @Username
- Full name
- Instagram ID
- @Instagram_ID

obviously with the username and instagram ID of my account, but nothing was shown.

How can i do??

Thanks

Hello,

Could you specify name (link) of timeline which you want to show? You can send it by email.
