
Image preview - available?

Posted by Internaut - 2017/08/06 20:06

When in Sliders > Slide and choosing an image, the Image GUI only displays images as a single icon. Is it a setting I missed that will provide thumbnails preview of each image?

TIA
i

Hello,

Sorry, but currently the extension doesn't support ability to preview images in file manager.

Regards,
ARI Soft
