
Changing time format in an event

Posted by tiagoangelo - 2016/07/08 13:56

Hi,

Just start working a few days ago with your CalendARI Joomla module, and need to change time format form the events listed in the calendar, from 9:00p to 21:00 (g:i to H:i)

How can I do this and where? I can't find nothing regarding this in the language files...
