Z-Index of Popup
Posted by willie.twsc - 2016/10/28 07:08
_____

Hi, how do I bring the popup forward on screen? The header menu of my template cuts the top-part of the popups. I tried to change the z-index of the menu with no luck. Maybe changing the z-index of the popup will work. How do I do that? THanks in advance.

Hello,

Is it possible to see the problem anywhere?

Regards,
ARI Soft

Hi,

Thank you for responding!

Have a look and the photo gallery at the bottom of the page:

_____

Hello,

Add the following CSS rule to "Advanced -> Custom styles" parameter in plugin settings:

HTML body.sticky #headerwrap {z-index:1000}

Regards,
ARI Soft
