
ARI Magnific Popup Pro disable \"Highlighting\"

Posted by nfbauti - 2016/11/24 21:05

Good afternoon and I hope you are well

When you install the ARI Magnific Popup Pro v. 1.0.1 Some buttons in the JCE text editor are locked, for example, I can not use the \"Highlighting\" button and the background of the editor changes color

Check that this problem is by installing the ARI Magnific Popup Pro v. 1.0.1 when uninstalling everything works fine again.

The Joomla version is 3.6.4

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem? We checked it with JCE v. 2.6.0 (free edition) on our test site and the extension works fine together.

Regards,
ARI Soft
