## Popup doesn't work

Posted by Andra - 2020/08/03 17:04

---

Hello, i use the ARI Magnific Popup on the Mono Template. It still works til today ... I has updatetd Joomla Version 3.9.20 can it be that there are compatibility problems? The pictures open like a im scr link not like a popup...

Here ist a link as an example:  
mind-flash.de

Thx and best regards

Hello,

This problem with an extension which generates the following code:

```
{ "@context": "http://schema.org", "@type": "Organization", "name": "Arno B\u00f6ck", "url": "https://mind-flash.de", "logo": "https://mind-flash.de/images/werbeagentur-mindflash-mediadesign.jpg", "telephone": "+4922517844689", "sameAs": {} }
```

The code is inserted in an incorrect place. It breaks other JS code on the page including code of our plugin. You can see an error in browser's console.

Regards,  
ARI Soft

Hello,  
many thanks for your answer!  
It was the RokBooster Plugin, not it works perfect B) :-)

Best regards!

How i can close the tread as solved?
