
How to set the duration of the cookie

Posted by studiocurci - 2022/01/15 07:27

Hi, I suppose if I set the parameter OPEN = ONCE, the cookie duration is one month. Is it possible to set the cookie duration for 6 months?

Thank you

Best regards

Francesco

Hello,

You can use lifetime shortcode parameter to limit lifetime in days.

Thank you, for 180 days do you mean like this?

lifetime="180"

I cleared the cache of the site and Chrome, but I still see Expires/Max age = 2022-02-14T13:04:29.513Z

Thank you, best regards

Francesco

Sorry, our mistake. It should be splash_lifetime parameter.

Thank you, it works fine.

My best regards

Francesco
