
[Solved]Changing progress back color

Posted by Louis S - 2017/02/09 21:48

I don't find the css code to change the progress bar color.

I found the background color, but not to progress one!

Thanks

Edit: it's solved, thanks

Hello,

We are working on visual theme builder, but currently you can change color of progress bar using the following CSS rule:

```
BODY .asq-theme.asq-theme-buzzfeed .quiz-progress-bar:after,  
BODY .asq-theme.asq-theme-standard .quiz-progress-bar:after {background-color: red;}
```

It can be added to "Custom CSS Styles" parameter on "ADVANCED" tab on "ARI Stream Quiz -> Settings" page.

Regards,
ARI Soft
