
Custom Results in Personalities

Posted by lynmangoro - 2017/06/01 15:49

Hello, I have set up the quiz. We have 6 personality types.

On the results page we would like it to show the main personality result and then show what they scored (the number) for ALL of the personality types.

I have set it to show 6 personalities on the results page but how do I get it to show the score for each personality?

Also how can I add a custom newsletter signup code depending on which personality they get as the main one?

Thanks!

Hello,

1. Open "SHARING" tab on "ARI Stream Quiz -> Settings" page and find "Title on result page" parameter for personality tests. For example populate it with the following value:

You are {{title}}. Score: {{score}} / {{maxScore}} ({{userScorePercent}} %)

2. If we add a new parameter to show description only of main personality (descriptions are defined on "PERSONALITIES" tab on quiz settings page) and show titles for other personalities. Will it be suitable for your needs?

Thanks for your reply!

1) This is perfect - thank you!

2) Yes, that sounds great! Then I could add code for the relevant mailchimp signup form for each personality (we will have a different list for each personality). Will you be able to create this functionality? How soon?

Thank you for the brilliant plugin and report!

Would we be able to show TITLE and SCORE for the other personalities?

Re:Custom Results in Personalities

Oh wow, 48 hours, amazing! Thank you!
Will I need to do anything to receive this update?
Will it be easy to see how to implement it?

We will add the checkbox like on the screenshot below:

http://www.ari-soft.com/images/fbfiles/images/quiz_personality.jpg

If you have any suggestions, feel free to send them.

Regards,
ARI Soft

This looks great! So when it shows the 'title' this will include the 'score' for all other types?

New version of the plugin is ready. It contains the parameter like on the screenshot from our previous post.

You can read here how to enable auto updates.

PS: If you have any questions, feel free to contact us.

Thank you! Wow, this is brilliant! Thank you so much for your fast response!
I already entered my api key some hours ago to have automatic updates but I don't see this option yet. DO I need to do something else?

The plugin checks updates each 2 hours. You can also check it manually, for this open "Plugins" page and click "Check for updates" link:
