
It won't let me save & copy the quiz.

I love your plugin and I felt excited to create more questions. This was working a week ago but when I was creating a different quiz, it won't let me copy or even save the quiz.

When I clicked save on a new quiz, it only darkens and nothing happens. This also happens when I copy a quiz.

I clicked clean uninstall before deactivating the plugin.

I installed and activated once.

I created a new one but it's still the same.

Please let me know how to fix this. :unsure: <http://www.ari-soft.com/images/fbfiles/images/aristream.jpg>

Hello,

Could you provide a temporary access to WordPress backend and FTP access by email so we can investigate the problem?

Regards,
