
Quiz cannot display properly on dark background

Posted by terrachua - 2017/07/21 08:42

Hi, my website has a dark background and the quiz question and results doesn't display properly. Take a look at the screenshot attached.

How do I correct this? <http://www.ari-soft.com/images/fbfiles/images/Picture2.jpg>

Hello,

Could you provide a link to a page where possible to see the problem and specify what styles you want to change (background of answers, text color and etc.)? If it is private, you can send the link by email.

Open "ADVANCED" tab on "ARI Stream Quiz -> Settings" page and populate "Custom CSS Styles" parameter with the following value:

```
.asq-theme,  
.asq-theme .quiz-question-answer LABEL {  
  color: #f1b14d;  
}
```
