
Active Campaign Tags

Posted by lynmangoro - 2017/09/05 09:07

Hello

We will be adding an Active Campaign optin form to each personality result (not using the built in integration) inviting the user to optin and receive a full report by email. So we have 6 different lists for our 6 personality results. Is there a way to add a tag to send through the SECOND highest result to help us with our filtering in Active Campaign?

Thanks

Lynda

Hello,

Sorry, but currently it is not possible.

Is this function available yet? I also would like to add a tag into active campaign based on the users quiz results.
