
Reordering trivia quiz answers does not work

Posted by philono - 2017/09/24 17:58

After I drag and drop an answer to reorder it, I click "Save" but the ordering (sequence) of the answers remain the same. I use the PRO version wth latest WP version.

First there was a problem with the question reordering. It has been fixed (see my last post). Now ordering the answers is a problem. I've wasted so much time reordering the answers only to find out it wasn't working...

Hello,

Sorry for inconvenience. This problem is fixed in "ARI Stream Quiz PRO" v. 1.5.3. Update the plugin on your site please.

Regards,
ARI Soft
