
Change the text on the email form

Posted by bamfood - 2017/10/19 09:07

Hello

I need to be able to change the text on the email form to add in a special offer to entice people to complete it. I want to add the text "Complete the form below to receive a voucher to get a FREE packet of bacon!"

I cannot for the life of me work out how to do that? Is it possible?

Hello,

Do you want to change button label or add a text after/before form with name/email fields?

Regards,
ARI Soft

Update the plugin to v. 1.5.8. It contains "Content before lead form" and "Content after lead form" parameter on quiz settings page. Open "Settings" tab and find "Custom content management" section.
