Hello

I need to be able to have more than 4 optional answers for each question, and can't find the way to do it, if that is possible. Need help with this asap.

Thanks!!

Hello,

You can add as many answers as you want. Use "Add answer" button for this purpose:

Sorry about my question! the development team hide the button with css, that's why I didn't see that huge button :blush:  
Thanks very much and sorry again
