
Translation issues

Posted by TibTib - 2017/11/03 12:20

Hi,

There are some translations issues with the plugin, and I would like to know if you could advise me on how to best correct them, please. I would like to translate everything into French.

1. When showing the results at the end of the personality quiz, the title says 'You are :' The "You are" hasn't been translated.
2. When you ask for the name, you translated "Your name" into "Votre nome" when it should be "votre nom". The translation is correct for the box capture.

Is there maybe a way for me to make those changes directly through FTP access? if so, can you direct me to the file I should be looking for?

Thank you in advance

Hello,

1. Open "Sharing" tab on "ARI Stream Quiz -> Settings" page and see "Title on results page" parameter in "This parameters section is used to configure sharing content for personality quizzes" parameters section.
2. You can read here how to modify existing translation or create a new one.

Regards,
ARI Soft
