
Results by Email

Posted by TibTib - 2017/11/03 16:01

Hi,

I would like, if possible, to not have the results appear on the page directly after they submit their emails, but that I get to send it to them separately using my own distribution channels. Is there a way to do this?

Thanks

Hello,

Do you want to send questions with answers by email or results personalities?

Regards,
ARI Soft

Hello

Simply the results of their personality quiz.

Thank you

Hello,

The plugin can send personali(es) results by email. For this use "Send results by email" parameters section on "Settings" tab on quiz edit page, but currently it doesn't support ability to hide results on quiz final page. We will add this feature to a future version of the plugin.

As a temporary solution, you can open "Advanced" tab on "ARI Stream Quiz -> Settings" page and populate "Custom CSS styles" parameter with the following value:

```
.quiz-result-wrapper {display:none!important;}
```

You can use "Settings -> Custom content management -> Content after result area" parameter on quiz edit page if want to show some content on quiz results page.

Regards,
ARI Soft
