Unable to change the \"Correct\" and \"Wrong\" text
Posted by MStock - 2017/11/05 14:18
_____

Hi,

I read the translation docs (http://www.ari-soft.com/docs/wordpress/ari-stream-quiz-pro/v1/en/index.html#translations),
but still struggle to change the words "Correct" and "Wrong" in the quiz to "Riktig" and "Galt".

I downloaded the ari-stream-quiz.pot and made some changes in the code:

#: quiz-session/class-html.php:56
msgid "Correct"
msgstr "Riktig"

#: quiz-session/class-html.php:58
msgid "Wrong"
msgstr "Galt"

Then, I uploaded the file "ari-stream-quiz-nb_NO.pot" to ...wp-content/plugins/ari-stream-quiz/languages/override/

However, when taking the quiz I still get "Correct" and "Wrong".

What did I do wrong?

Thank you.

_____

Hello,

.pot is a template file which is used to create a new translation. It is compiled to .po and .mo files. We recommend to use
POEdit tool or LocoTranslate WordPress plugin to edit existing translation or create a new one. If you need more
assistance, let us know.

Regards,
ARI Soft

Thank you for your reply. Do you also recommend to use the LocoTranslate WordPress plugin if I only want to change
the words "Correct" and "Wrong"? I don't need/want to translate rest of the ARI Stream Quiz plugin.

Thank you.

If you don't want to install LocoTranslate on your site, you can install POEdit application on your local machine. It can
work with PO/POT files.
