
Quiz Score

Posted by eliaslange - 2017/11/28 16:26

Hi.

Is it possible to enable / disable the quiz-score at the result page?

Cheers,
Elias

I have also tried to translate "You got * out of * correct" with Loco Translate but this can't be found in the language file. Is there another option for this?

Hello,

You can change "You got * out of * correct" message on "ARI Stream Quiz -> Settings" page. Open "Sharing" tab and see "Title on result page" parameter. You can remove score from this message.

Regards,
ARI Soft
