## Support shortcodes in quiz result

Posted by eliaslange - 2017/11/28 17:02

---

Hi.

I have noticed that the Support of shortcodes in quiz description, questions, answers and results are still in beta. I just want to say that Contact Form 7 isn't working with that feature right now but hopefully in the future. This would be great!

Cheers,  
Elias

Hi,

I am also interested in that topic. Will it be possible in the future?

kind regards

Hello,

Are you interested in embedding CF7 forms or another shortcode?

Regards,  
ARI Soft
