
Remove quiz title from results page

Posted by trineagenda - 2018/01/11 20:03

Hi,

I want to remove the title of my quiz from the results page.

I managed to remove the score from another forum-post, but not the title of the quiz.

Please help asap :-)

Hello,

Open "Advanced" tab on "ARI Stream Quiz -> Settings" page and populate "Custom CSS styles" parameter with the following value:

```
.quiz-result-wrapper .quiz-title {display: none;}
```

Regards,
ARI Soft
