
Change color of quiz questions

Posted by trineagenda - 2018/01/15 21:12

Hi

I need to change the color font of the quiz questions but not the possible answers.

See virtugo.com/quiz

The pink questions need to be white but the possible answers for each question needs to remain pink.

Help please

Hello,

Open "Advanced" tab on "ARI Stream Quiz -> Settings" page and populate "Custom CSS styles" parameter with the following value:

```
.asq-theme .quiz-question-title {color: #fff;}
```

Regards,
ARI Soft

Not working. What can be wrong?

I have the following in my css:

```
.asq-theme,  
.asq-theme .quiz-question-answer LABEL {  
color: #ff015a;  
}  
asq-theme .quiz-question-title {color: #ffffff;}
```

I fixed it. Thank you :-)

All of these styles would be great to have in one long thread.

But now we have the problem here when entering.
We need to have the text in pink here as well

Anything we can do? <http://www.ari->

Add the following CSS rule:

```
.asq-theme .quiz-label,.asq-theme .quiz-user-data-form .data-row {color: pink;}
```

Regards,
ARI Soft
