
continue button in the single answer mode

Posted by meek - 2018/01/31 11:30

Hi,

Is it possible in the single answer mode of the personality test to make such changes:

1. Place under the check out boxes "continue" button. The transition to the next question will take place after pressing the button, not as it is now, after choosing the answer

2. To make possible corrections of the answer (changing the answer) - After choosing the answer and before pressing the "continue" button

Regards,
Tomek

I add the post again because the previous one is not displayed

Hello,

Sorry, but currently the plugin doesn't support this ability.

Regards,
ARI Soft
