Emailing the results to myself
Posted by joylee - 2018/02/05 01:32

_____

Hi,

Not sure if this functionality is currently available. How can I email the quiz results to myself?

I know that there is a function to send the quiz result to the respondent.

Thanks,
JoyLee

Hello,

Currently the plugin doesn't support this feature. We can implement it in the next version of the plugin.

Regards,
ARI Soft

Please do! Currently there isn't much software out there providing this simple, but crucial function! :D

Hi there! Has this option been added yet? I really need it too and actually without it the whole purchased plugin doesn't work for me :((
