
import questions and answers from csv or GIFT file

Posted by lbarriocanal - 2018/02/12 17:24

Hi,
I have tons of quizzes in Moodle. Migrating so many questions and answers to Ari Stream quiz is a hard work if you haven't a import tool.
Are you planning this feature for next versions of your plugin?
Thanks

Hello,

Currently we don't have plan to support of import quizzes from Moodle. We are going to add import/export between different installations of "ARI Stream Quiz".

Regards,
ARI Soft
