Hi there!

   I followed the instructions from your short tutorial, but the messages translated from frontend part are still not showing in my language (pt_BR).   :(

   Please, find attached a print screen of the Loco Translate admin page.

   My webpage with the quiz: http://www.bebecomrefluxo.com.br/sobre-2/

   Thanks in advance.

Regards,

Marcelo. http://www.ari-soft.com/images/fbfiles/images/ps_loco_translate.png

Hello,

Could you send translated .PO file by email?

Regards,
ARI Soft

Thank you for your reply.

I've just found the problem: my WP's default language was en_US whereas I was translating a pt_BR file. So, I changed the default language to pt_BR. :)

Regards,

Marcelo.
