How to fully customize plugins\' frontend style?
Posted by mfmazzero - 2018/03/05 22:51
_____

Hi there, again!

How do I do to fully customize the plugins' frontend style?

I'd like to customize the plugin's frontend style, e.g. bottom size and colour, font type and size etc.

Mostly, the type and size of the fonts are not in harmony. For example, at one place the fonts are large and in another, small.

Please, find attached a print screen highlighting it.

Thanks in advance.

Regards,

Marcelo. http://www.ari-soft.com/images/fbfiles/images/ps_webpage_quiz_odd_style.png

In addition, I also would like to:
- hiding the title "Complete the form below to see results"
- hiding the quiz title in the results

Hello,

Font family and size can be different if it is override by theme/3rd party plugin styles. Could you provide a link to a quiz and specify what font/size do you want to change?

Add the following code "Advanced -> Custom CSS Styles" textarea on "ARI Stream Quiz -> Settings" page to hide "Complete the form ..." label:

.asq-theme.asq-theme-buzzfeed .quiz-user-data .quiz-label {display: none}

Regards,
ARI Soft

Hi there!

I've already done a few customizations :) , but I'm still waiting for your support :(.

Here is my quiz link: www.bebecomrefluxo.com.br/sobre-2/

1) I would like to customize the background/text colours of the:
1.1) "Continue" bottom. (From green/white to another pair of colours.)
1.2) Selected "questions at the end". (From blue/black to another pair of colours.)

2) I also would like to hide:
2.1) The text "Your e-mail :".
2.2) The quiz title on the final page where the results are shown.

Thanks in advance.

Regards,

Marcelo.

_____

Open "ADVANCED" tab on "ARI Stream Quiz -> Settings" and populate "Custom CSS styles" parameter with the following code:

```
/* 1.1 */
body .asq-theme.asq-theme-buzzfeed .button.button-next-page {color: red;background-color:blue;}

/* 2.1 */
.quiz-user-data-email>LABEL {display:none;}

/* 2.2 */
.quiz-result-wrapper .quiz-title {display:none;}
```

About 1.2, could you provide a screenshot where possible to see what you want to change?

Regards,
ARI Soft

Hi there!

Many thanks for the other codes! :)

The print screen of "1.2) Selected "questions at the end". (From blue/black to another pair of colours.)" is attached.

I'm looking forward to your answer.

Regards,

Marcelo. http://www.ari-soft.com/images/fbfiles/images/ps_selected_questions_end.png

_____

Add the following CSS rule:

body .asq-theme.asq-theme-buzzfeed .quiz-question-answer-selected {background-color:red;color:orange;}
