## Odd Issue With Links

I decided to look and see how the quiz looked on the site before I finished creating it, and this is what I got when I clicked the quiz link. Any idea what's wrong? This is frustrating. <http://www.ari-soft.com/images/fbfiles/images/What.png>

Hello,

Could you provide a link to a page where the problem occurs? Could you also try it with another theme?

Here is the direct link to the quiz page: <https://gutsandglorybooks.com/?aristreamquiz=1>

Here is the link to the main page (you click "Earn Yer Nil Name" to the left to get to the quiz from there):  
<https://gutsandglorybooks.com/>

I have customized the theme, so I am afraid to change it, because I would have to do all that work again to change it back.

We can't open the link to the quiz because this link is available only for administrators and not available for other users. Try to embed the quiz into a post (page) via shortcode and check it.
