# Wordpress Theme Not Working

Posted by jbrisbane - 2018/03/16 20:50

_____

When I activate a shortcode on a post the quiz displays but my websites ads and theme sidebar disappear.

Here is an example of where I placed a quiz: http://www.reinventingaging.org/facts/quiz-can-you-pass-this-advanced-grammar-test-for-a-150-iq/

Here is an example of what the surrounding page elements should look like with ads and sidebar: http://www.reinventingaging.org/womens-health/cancer/10-early-signs-that-cancer-is-growing-in-your-body/2/

Any help would be appreciated.
