Answers ordering problem in Chrome
Posted by Relkaw - 2018/04/03 01:15

_____

I bought this plug-in this morning and made a website called fretboardquiz.com. the answers for every question are the 12 notes of the musical alphabet from A to G sharp. The the ordering sequence is working properly in most browsers. However in Chrome for some reason D#/Eb is showing up before A as the first answer for each question. Please help me solve this problem. Thanks

_____

Hello,

Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft

_____

http://fretboardquiz.com
The ordering problem is happening in chrome.

_____

Any thoughts? I tried it on your demo site and had the same problem. The 7th question always goes to the 1st position in Chrome.

_____

Thank you I appreciate it. I really like this plugin. Something else that would also be great on the next update would be the ability to clone individual questions within a quiz.

_____

Update the plugin to v. 1.5.23. It should resolve the problem.
