
Issue for Outside Users

Posted by JessicaCrichton - 2018/04/18 15:26

Hi, and thanks for all your help so far!

So I'm having an issue where nobody can access the quiz but me if I'm logged in to Wordpress. I'm attaching a side-by-side of what the quiz should look like and what it does to anyone except me. Here is a link to the quiz as well. What could be causing this? Thank you! <http://www.ari-soft.com/images/fbfiles/images/Argh-73711bd9585062b7f2f1d6d7dbef6b9e.png>

Hello,

You provided a preview link, it is working only for administrators.

Use a shortcode to embed a quiz into posts/pages. It looks like:

Regards,
ARI Soft
