# ActiveCampaign intergration
Posted by ollimarketing - 2018/05/07 07:43

_____

I've added in our Active Campaign URL and Key, but no quiz results are being fed into Active Campaign. Do you have documentation on how to correctly set this up please?

_____

Hello,

You can read here how to configure integration with ActiveCampaign.

If it doesn't help, could you generate a temporary URL/key and send them by email so we can investigate the problem on our test server?

Regards,
ARI Soft
