## Invoice for my purchase

Posted by mte90 - 2018/05/09 11:39

---

Hi, I need an invoice for my purchase of this plugin.

I discovered that the code inside jquery.quiz.js, script\_loader.js, app.js and the pages folder is obfuscated and we cannot use the plugin with that.

For our customer policy we need to be aware of this code also in case we need to adapt for our internal use or investigate for problems.

It is possible to have this file not obfuscated? Or in case we need to ask a refund and search another plugin also if we paid for a GPL software.
