
Progress Bar Not working Properly

Posted by mahesh Prasad - 2018/05/17 06:18

Hello,
We have used ARI stream quiz plugin in our site,we have used the progress bar in settings which shows how many questions over like 1/6,2/6 etc.,

But the problem we are facing here is we are unable to get the progress bar after 3rd question it shows only progress for first 2 questions later it again starts from 0/6.

Kindly give us a solution as soon as possible.Its URGENT

Is this problem occurs only when "ARI Stream Quiz -> Settings -> Reload browser on page changing" parameter is enabled?

Regards,
ARI Soft
