## Personality description not saving

Posted by johnhorning - 2018/05/17 19:24

---

When I change a personality description, save it, then return, it's not saved - most of the time. Sometimes it does save. I can't figure out how to make it work every time.

I've tried clearing cache - still have problems.

Any suggestions?

John

I can't tell you what I did, other than going back and forth between WYSIWYG and View HTML, but it saved this time.

Hello,

If the problem appears again, let us know and we will investigate it.
